Procedure

A. Confidentiality

Under all circumstances, the individual's right of privacy will be protected. Only those individuals who are directly involved with the student(s) or employee's daily activities will be notified concerning the presence of a communicable disease.

B. Pandemic

Should a pandemic occur, the College President will work in concert with local fire, rescue, and emergency medical services as well as the Department for Health and Environmental Control (DHEC) and Centers for Disease Control and Prevention (CDC) to determine the need to evacuate/close the college in the interest of personal safety and, if necessary, to establish any quarantine or containment protocols.

C. Students

1. Student's Responsibility

If any student has knowledge of having a contagious or infectious disease or having been exposed to a contagious or infectious disease, it is the responsibility of the student to notify the Vice President for Student Development

2. Employee Responsibility

If an employee suspects a student of having a health condition which could possibly be communicated to others, the Vice President for Student Development

should be notified immediately. The student may be excluded from the campus until an appropriate assessment of the student's medical condition can be made.

3. Assessment of Students

- a. The assessment of a student with a suspected contagious or infectious disease and the determination of a student's ability to remain at school will be made by the President after a preliminary consultation with the Vice President for Student Development, based upon recommendation from local health authorities.
- b. If the President feels that the situation poses a real threat to the College or the community at large, he will notify the Public Health Authority of all known details and seek their advice and counsel
- c. Under provision of South Carolina Code 44-29-200, the President will prohibit the attendance of any student until a satisfactory certificate is obtained from one or more licensed physicians and the Public Health Authority stating that such attendance is no longer a risk to others at the college.

D. Employees

1. If an employee has knowledge of having a contagious or infectious disease or having been exposed to a contagious or infectious disease, it is the responsibility of the employee to notify the Director of Human Resources.
2. The employee may be excluded from the working until an appropriate assessment of the employee's medical condition can be made.
3. If the President feels that the situation poses a real threat to the college or the community at large, he will notify the Public Health Authority of all known details and seek their advice and counsel.
4. Under provision of South Carolina Code 44-29-200, the President will prohibit the attendance of any employee until a satisfactory certificate is obtained from one or more licensed physicians and the Public Health Authority stating that such attendance is no longer a risk to others at the College.
