AMERICA READS

The *America Reads Challenge* is a national campaign with one major objective: to have all children reading well and independently by the end of the third grade.

College students have the opportunity to earn Federal Work Study funds by tutoring children in Kindergarten through 3rd grade in local elementary schools. If you are interested in this program, please give brief answers to the following questions:

1. What is there about working with children that makes you enjoy it?

2. What is your understanding of the challenges that children with reading difficulties face?

3. Describe your past experiences working with children.
