RATIONALE

Why do I need this course?

It is extremely important that students see how basic principles of chemistry relate to the world around them. It is also important to develop skills needed to advance in future studies. It is also critical that the student see how chemistry is relevant to their particular interests and careers.

PROGRAM INFORMATION

For program information including required courses, program learning outcomes, gainful employment information and advisement information, refer to the Academic Program webpage. Go to [Academics](http://www.ptc.edu/academics) (<http://www.ptc.edu/academics>), select your program, and then select Credentials Offered.

COURSE STUDENT LEARNING OUTCOMES

Upon successful completion of this course and/or clinical, each student will be able to:

- Analyze data and scientific arguments.

- Synthesize and apply concepts from multiple sub-areas of chemistry.
- Recognize the applicability of foundational and advanced concepts to new situations.
- Solve multi-step complex problems, and communicate clearly answers and scientific reasoning in both written and oral forms.
