RATIONALE

Why do I need this course?

Features such as irrigation systems, retaining walls, paver patios and pathways, pergolas, water gardens, and landscape lighting are all important aspects of the residential and commercial landscape. These features can increase property value to homes and increase consumerism for commercial businesses. Landscape construction is a booming industry and it is an in-demand skill for landscapers.

PROGRAM INFORMATION

For program information including required courses, program learning outcomes, gainful employment information and advisement information, refer to the Academic Program webpage. Go to [Academics](http://www.ptc.edu/academics) (<http://www.ptc.edu/academics>), select your program, and then select Credentials Offered.

COURSE STUDENT LEARNING OUTCOMES

Upon successful completion of this course and/or clinical, each student will be able to:

- Summarize the landscape construction process from site preparation to site clean-up.
- Calculate material needs and costs for landscape construction projects.
- Review grading and drainage practices for landscapes.
- Explain how to install retaining walls, pavers, water features, irrigation systems, sod, landscape plants, wood features, and landscape lighting.
- Safely operate landscape construction equipment.
- Demonstrate an ability to accurately mark and place site features in the landscape according to the plan documents.
