Addendum to 2010-2011 Academic Catalog

Nursing and Health Science

Nursing and Health Science majors must attend a mandatory Nursing and Health Science Information Session. Students will meet in the Admissions Office fifteen minutes prior to the meeting time. These sessions are also available at the county centers and will provide all the information necessary to apply for admission to a nursing or health science program. Contact a location near you for session dates and times.

The order of progression for Nursing and Health Science students is as follows:

- Applicants for Nursing and Health Science programs will initially be enrolled in the General Health Science Certificate program. However, Nursing students who plan to pursue a BSN upon completion of the Associate Degree Nursing program should enroll in the Associate of Arts Nursing Transfer Track (AANT).
- Upon satisfying program-ready requirements, students must submit a program-ready application for their program of choice. Courses required for program-readiness must be completed with a “C” or better.
- While waiting for entry into a Nursing or Health Science program, applicants are encouraged to complete all the courses in the General Health Science certificate and AANT.
