

An Employee Assistance Program or EAP is a special employee benefit provided by your employer to assist you and your family members with personal, marital, family and job-related problems. An EAP is a job-based program with the goal of assisting employees in achieving and maintaining happy, healthy and fully productive lives both on and off the job. In addition, the REACH WorkLife Services benefit offers a range of services to help balance work and personal life, including behavioral counseling, legal services and financial counseling.

The REACH staff is experienced and ready to assist you. Our services are available to you 24-hours-a-day, seven-days-a-week and are *very confidential*. Appointments are scheduled at locations away from your workplace at times and locations that are most convenient for you. REACH provides up to 8 assessment and counseling sessions per problem situation for both you and your eligible family members.
