READY TO ROLL
Have you ever gestured toward a commercial truck driver to pull on his air horn? It’s great fun, and Piedmont Technical College (PTC) is having a little fun “blowing the horn” in announcing an inspired partnership that is rooted in the challenge of improving the state’s network of roads and highways. The SC Workforce Development Board has named PTC the lead agency and training provider for a $355,363 grant project, titled “Ready to Roll,” designed to increase the state’s workforce for highway construction and related sectors.

“The timing for this partnership is perfect, because Piedmont Tech is offering two new, first-time degree tracks: Commercial Driver’s License A/B and SC Logistics Certified,” said Rusty Denning, PTC associate vice president for economic development and continuing education.

The Upper Savannah Council of Governments (USCOG) board learned of the state’s plans to use earmarked gas tax funds to address overdue maintenance issues last fall when DOT Secretary Christy Hall addressed the group. Although funding was available, the highway construction industry is experiencing a shortage of skilled labor, which has stalled progress on the plan.

“Developing a system of roads to meet the demands of area residents takes time, money and manpower. For 20 years, the Upper Savannah Council of Governments has been working with the SC Department of Transportation (SCDOT) to help plan improvements,” said USCOG Executive Director Patricia Hartung. “Member governments in six counties and the board of directors have provided input on the region’s needs to improve safety and increase commerce.”

Ready to Roll offers short-term training (two months or less) to help people with employment barriers enter the logistics profession either as a material handler or a truck driver working in the road construction industry.

PTC’s Commercial Driver’s License (CDL) Class A program takes six and a half weeks to complete and qualifies participants to drive a tractor-trailer. Tuition for the class is $3995, all of which is covered by the grant. Students only incur a $25 out-of-pocket fee for background screening.
