Health Care Program Acceptance Data - All Majors

NOTE: The points ranges listed below are NOT the scores required to be accepted into your program!

The data below provides the points ranges for applicants who were accepted into each program during the most recent application periods. Because the number of applicants may change each application period, it is not possible to predict the exact number of points needed for acceptance into a given program. This data is to be used as a reference only.

Beginning Fall 2025, the minimum program ready GPA will increase to 3.0 for all programs.
