Piedmont Technical College supports the appropriate and responsible use of artificial intelligence (AI) to advance teaching and learning, generate innovation and creativity, and improve productivity. Piedmont Technical College will provide education and awareness of AI tools and use appropriate to education and the workplace.

Piedmont Technical College also recognizes the potential risks involved in exploring and using AI to supplement teaching and learning and in the use to support the daily operations of the college. In order to mitigate risk and encourage exploration of effective AI tools for education, the College aligns the use of AI with college policies and procedures related to network acceptable use, copyright compliance, academic freedom, and academic integrity.

Identified or reported misuse of AI tools and generated work will be subject to student or employee disciplinary action.
