Program Overview

By developing skills in keyboarding, word processing, spreadsheet applications, information management, dictation and transcription, the Administrative Office Technology graduate can provide a service necessary to the efficient operation of every business, industry and agency.

Actual work experience gained in an area business or industry gives the student an opportunity to assume on-the-job responsibilities even before graduation. Instruction in office procedures, communication applications, telephone training, information processing, accounting and other business skills gives the graduate the ability to exercise good judgment, work independently and take full responsibility for handling the details of office administration.

The required general education classes develop communication and math skills and other professional qualities necessary for the smooth operation of a modern business office.

PROGRAM REQUIREMENTS

A.A.S., Major in Administrative Office Technology

During this two-year course of study, students choose electives in the field of work in which they are most interested. The student may choose an accounting, legal, medical and medical coding/billing concentration.

Students enrolled in the Medical Coding/Billing concentration will take AHS 174 (Medical Coding Practicum) for internship experience. All other students will take CWE 101 and CWE 112.

Courses with a prefix of AOT, CGC, CPT and IST must be less than 8 years old in order to count toward a certificate, diploma or degree program.

Office Technician Certificate

The Office Technician certificate is designed for students who wish to obtain an entry-level data-entry position in a short period of time.

Many job postings require keyboarding, word processing and spreadsheet manipulation skills. This certificate exposes the student to all three areas with the major emphasis on intermediate and advanced word processing applications. Document production (quantity and quality) is also addressed.

These skills facilitate the student's entry into the job market, and completing an associate degree can lead to job advancement.

These certificate courses naturally feed into the Administrative Office Technology and Office Management concentration of the General Business associate degree programs.
