Program Overview

The mission of the Business Department is to provide quality education that is accessible, affordable and innovative with continuing involvement in partnering with all stakeholders of Piedmont Technical College.

The field of business offers numerous opportunities. Probably no other occupational area encompasses the diverse range of activities that is found in business. Accounting and management are typical examples of the potential career possibilities for business graduates.

PROGRAM REQUIREMENTS

A.A.S., Major in Business Administration

By carefully selecting appropriate electives, Piedmont Technical College's business students can prepare for the specific aspect of business that they wish to pursue. (Contingent on sufficient student interest and enrollment, elective courses are available that lead to a degree in Business Administration with concentrations in Accounting, Management or Office Management.) Students can pursue their studies in either day or night classes, if sufficient enrollment is maintained.

Transfer opportunities exist for business students upon completion of the two-year degree. The number of business courses accepted varies from institution to institution and the student should contact his/her advisor as early as possible to explore transfer options. Written transfer agreements have been reached with Lander University and Newberry College in an attempt to provide maximum transferability of coursework.

*MGT 240 is the "capstone" course of the business curriculum and should be taken during the student's last semester before graduation.

GENERAL EDUCATION COURSES

COURSES		CREDIT HOURS

Entrepreneurship Certificate

The Entrepreneurship certificate is designed to give students the basic business concepts necessary to start and operate their own small business. It is useful for Industrial Technology students, for example, who have gained technical skill, but may be lacking the business understanding to make their new venture successful. Current entrepreneurs may also benefit

from this class as they will gain practical knowledge useful in growing and managing their existing business. The certificate introduces students to various core business aspects found in all businesses.
