PROGRAM REQUIREMENTS

A.A.S., MAJOR IN RADIOLOGIC TECHNOLOGY

The Radiologic Technology curriculum is designed to assist students in acquiring the general and technical competencies necessary to enter the radiography profession. Radiographers use state of the art equipment to produce diagnostic medical images in a variety of health care settings. This requires an application of combined knowledge in anatomy, physics, procedures, imaging techniques and patient care.

The constant growth in the field has created new and exciting career opportunities in specialty areas. Graduates may also choose to pursue an advanced degree. Graduates qualify to sit for the American Registry of Radiologic Technologists exam.

Admission: Acceptance into Piedmont Technical College's RAD program is competitive and is limited to 20 students to begin fall semester. See the college calendar or website for application dates. The Radiologic Technology program is accredited by the Joint Review Committee on Education in Radiologic Technology (20 North Wacker Drive, Suite 2850, Chicago, Illinois 60606-3182; (312) 704-5300; www.jrcert.org).

To become eligible for entry into the Radiologic Technology major studies coursework, applicants must complete the following:

- Complete the following courses (minimum "C" grade required):
 - BIO 210
 - BIO 211
 - ENG 101
 - MAT 102 or 120
 - PSY 201
- Minimum grade point average for the above coursework of 2.5. A GPA calculator can be found on the college website.
- Good academic standing at the college.

Students are required to maintain a current American Heart Association "Basic Life Support" certification throughout the major studies courses.

Major Studies Courses: Completion of the Associate in Applied Science with a major in Radiologic Technology requires six (6) semesters upon acceptance to the major studies coursework.
